Work Experience

Creator/Owner

LUCKIPIX-Atlanta, GA

January 2024 to Present

• Built full site on Bootstrap v5 with .NET Core v6 Web API

• As of 9/13/2024, current active membership count is 7,166

• REST API connections to GA, SC, NC, FL and TN lottery servers for historical data retrieval

• As of 1/1/2024 to present, 202 draws have been partially predicted with 18 draws fully realized

• Members have access to custom Charts, customizable dashboard, My PIX lottery number prediction algorithms, smart notifications and multi state/multi game play

Environment: ASP, ASP.NET, VB.NET, C#, MVC4, WCF, SOAP/Web Services, REST, Responsive HTML, Mobile, HTML, AJAX, CSS, XML/XSL, WAP/WML/Allscript, Visual Studio .NET 2003/2005/2008/2010/2012, CollabNET, TFS, VBScript, SQL2000/2005/SQL2008, Access2000, ADO, J Query, JavaScript, Silverlight, Exchange Server, Visual Basic, IIS5/6/7, Dreamweaver, Flash MX, and Fireworks MX, Intelligent, Infragistics, CRM, EDI, MySQL, VMware vSphere Client 5.5

Sr. Software Engineer/Team Lead

Sedgwick-Atlanta, GA

June 2020 to March 2023

• Analyze and translate business requirements and high level use cases into functional applications.

• Develop secure web based applications to support our clients using ASP.Net front end web services and SQL Server 2019 back end databases.

• Expand existing web applications to enhance functionality and increase usability and performance.

• Develop API Integration between claims management systems and various vendor and client systems in order to share data and create operational efficiencies with our clients and vendor partners

• Develop extensive integration between claims management system and financial database application supporting all billing and claim information

• Review SQL Server database tables, indexes and relationships to store new data sets as well as improve performance of existing databases; introduced CLR integrations

• Meet with various department heads and staff to fully understand business needs in order to effectively design systems to improve productivity and enhance business operations

• Remain up to date with the terminology, concepts and best practices for coding .NET web, MS Access, API and mobile Applications.

- Working independently with minimal supervision and oversight.
- Provide technical support for all web servers, web services, SQL Server and associated systems.
- Certified for Hilton, IHG, Choice Hotels, RingCentral, Tin-Check, Symbility, AMEX, VISA, Wellsfargo, FedEx and Google API Usage
- SSO integration with Okta and SAML Azure backend to an OIDC oAuth2 application
- sites are www.taclaimtrak.com; www.tainsuredtrak.com; api.tacares.io; api.temporaryaccommodations.net; tacares.com; sedgwick.com
- Mentor to two Jr developers.

Environment: ASP, ASP.NET, VB.NET, C#, MVC4, Azure, WCF, REST/SOAP/Web Services, Responsive HTML, Mobile, HTML, AJAX, CSS, XML/XSL, WAP/WML/Allscript, Visual Studio .NET 2003/2005/2008/2010/2012/2019, CollabNET, TFS, VBScript, SQL2000/2005/SQL2008/2019, Access2016, ADO, J Query, JavaScript, Silverlight, AWS, Exchange Server, Visual Basic, IIS5/6/7, Dreamweaver, Flash MX, and Fireworks MX, Intelligent, Infragistics, CRM, EDI, API, MySQL, VMware vSphere Client 5.5, JIRA, GitHub

Creator/Owner

myrpts.com-Atlanta, GA

August 2019 to October 2022

- Responsible for creation and full SDLC of the site
- Created new usage for linked servers in SQL Server 2008/R2/2016

Environment: ASP, ASP.NET, VB.NET, C#, MVC4, WCF, SOAP/Web Services, REST, Responsive HTML, Mobile, HTML, AJAX, CSS, XML/XSL, WAP/WML/Allscript, Visual Studio .NET 2003/2005/2008/2010/2012, CollabNET, TFS, VBScript, SQL2000/2005/SQL2008, Access2000, ADO, J Query, JavaScript, Silverlight, Exchange Server, Visual Basic, IIS5/6/7, Dreamweaver, Flash MX, and Fireworks MX, Intelligent, Infragistics, CRM, EDI, MySQL, VMware vSphere Client 5.5

Sr. Information Architect

CarterBrothers / CBTech Corporate-Atlanta, GA

December 2018 to August 2019

- Was reinstated as a Sr. Architect to begin translation/documentation of the SMART system as well as all back-end financial systems due to a medical issue with their COO. I was the only one who previously worked alongside their COO that could provide a clear understanding of the architecture for over 6 various system types
- Built and maintained customer, affiliate and internal portal
- Responsible for all internal day-to-day, mission critical SMART3 web application functions
- Built custom reporting with results emailed and scheduled in pdf format (containing dynamically created embedded graphs), graphing, service request engine, project management portal, custom CMX architecture and streamlining of legacy SMART3 application
- Responsible for all new IT, Network, Development and Security protocols since 12/2014
- Responsible for CollabNET source control implementation and use, both server and client
- Responsible for marketing and design of letterhead, business cards and new branding in 2015
- Responsible and built internal executables to be scheduled, allowing for auto-maintenance of the system as a whole, at the OS level, at the database level, at the file structure level and at the web level
- Created and maintained frequency scheduling allowing for auto-creation and updating of daily, monthly and quarterly work order generation
- Created and maintained internal email campaign functionality
- Created and maintained CRM architecture
- Assisted in the migration from internal exchange to office365
- Provided daily technical support for entire staff.
- Provided Sharepoint development portal for external law firms in sharing assets

Environment: ASP, ASP.NET, VB.NET, C#, MVC4, WCF, SOAP/Web Services, Responsive HTML, Mobile, HTML, AJAX, CSS, XML/XSL, WAP/WML/Allscript, Visual Studio .NET 2003/2005/2008/2010/2012,

CollabNET, TFS, VBScript, SQL2000/2005/SQL2008, Access2000, ADO, J Query, JavaScript, Silverlight, Exchange Server, Visual Basic, IIS5/6/7, Dreamweaver, Flash MX, and Fireworks MX, Intelligent, Infragistics, CRM, EDI, MySQL, VMware vSphere Client 5.5

Software Development Management

D Media-Atlanta, GA

June 2017 to July 2018

- Guide the project team's development efforts towards successful delivery
- Work on multiple projects with development team
- Provide technical leadership to teammates through coaching and mentorship
- Collaborate with team members and other stakeholders to plan and design solutions that satisfy larger business goals
- Assist with collecting and documenting user requirements, user stories and estimating
- Maintain high standards of software quality within the team by establishing good practices and habits
- Spot potential pitfalls and communicate them effectively
- Developed underlying database structure for future consolidation of projected goals for 2017-2018
- Developed beginning stages of internal portal
- Developed ORM for node js modules and controllers

Environment: ASP, ASP.NET, VB.NET, C#, MVC4, WCF, SOAP/Web Services, Responsive HTML, node js, electron, JIRA, Mobile, HTML, AJAX, CSS, XML/XSL, WAP/WML/Allscript, Visual Studio .NET 2003/2005/2008/2010/2012, GitHub, Sharepoint, TFS, VBScript, SQL2000/2005/SQL2008/2012, Access2000, ADO, J Query, JavaScript, Silverlight, Exchange Server, Visual Basic, IIS5/6/7, Creative Cloud, Fireworks MX, Intelligent, Infragistics, CRM, EDI, MySQL, VMware vSphere Client 5.5

Sr. Information Architect

CarterBrothers / CBTech-Gahanna, OH

October 2014 to June 2017

- Built and maintained www.cbtechnow.com
- Built and maintained customer, affiliate and internal portal
- Responsible for all internal day-to-day, mission critical SMART3 web application functions
- Built custom reporting with results emailed and scheduled in pdf format (containing dynamically created embedded graphs), graphing, service request engine, project management portal, custom CMX architecture and streamlining of legacy SMART3 application
- Built and maintained www.home worries.com and co-brand www.facilityworries.com
- Maintained and transferred from WordPress to local project architecture www.carterbrothers.com and all subsequent sibling sites
- Responsible for migration of primary MySql databases to SQL Server 2008 Enterprise environment
- Responsible for migration from old IBM servers to new Dell PowerEdge R730s. One PDC/Win2012R2. One Web Server and One SQL Server/both running win2008R2 on a VM platform VMware ESXi 5.5
- Responsible for all new IT, Network, Development and Security protocols since 12/2014
- Responsible for CollabNET source control implementation and use, both server and client
- Responsible for marketing and design of letterhead, business cards and new branding in 2015
- Responsible and built internal executables to be scheduled, allowing for auto-maintenance of the system as a whole, at the OS level, at the database level, at the file structure level and at the web level
- Created and maintained frequency scheduling allowing for auto-creation and updating of daily, monthly and quarterly work order generation
- Created and maintained internal email campaign functionality
- Created and maintained CRM architecture
- Assisted in the migration from internal exchange to office365
- Provided daily technical support for entire staff.

• Responsible for the move of all servers and equipment from the Ohio office to the Atlanta office, also responsible for being fully business ready three days later.

Environment: ASP, ASP.NET, VB.NET, C#, MVC4, WCF, SOAP/Web Services, Responsive HTML, Mobile, HTML, AJAX, CSS, XML/XSL, WAP/WML/WMLScript, Visual Studio .NET 2003/2005/2008/2010/2012, CollabNET, TFS, VBScript, SQL2000/2005/SQL2008, Access2000, ADO, JQuery, JavaScript, Silverlight, Exchange Server, Visual Basic, IIS5/6/7, Dreamweaver, Flash MX, and Fireworks MX, Intelliview, Infragistics, CRM, EDI, MySql, VMware vSphere Client 5.5

Sr. Information Architect

AGO / Attorney General State of Ohio-Columbus, OH

August 2013 to May 2014

Sr. Information Architect

◦ Worked with Registration and Charitable section of http://www.ohioattorneygeneral.gov/ , http://www.ohioattorneygeneral.gov/Business/Services-for-Charities and http://www.ohioattorneygeneral.gov/Business/Professional-Solicitors-and-Fundraisers to enhance product to Reggie version 2.4 and Charlie version 1.1

◦ SQL Server 2008 migration

◦ Resolved over 215 Mrs through TFS for both projects with a QA return rate of 1.7% over a four month time span.

◦ Initial project was to conform to their DB Entity architecture also implemented secondary environments to communicate with newly created web services

◦ Rewrote the entire application's logging backend to move from flat file into a web service while ensuring proper throttling.

◦ Attached to a WCF internal monitoring service as well as internal dashboards

Environment: ASP, ASP.NET, VB.NET, C#, MVC4, WCF, SOAP/Web Services, HTML, AJAX, CSS, XML/XSL, WAP/WML/WMLScript, Visual Studio .NET 2003/2005/2008/2010/2012, TFS, VBScript, SQL2000/2005/SQL2008, Access2000, ADO, JQuery, JavaScript, Silverlight, Exchange Server, Visual Basic, IIS5/6, Flash MX, and Fireworks MX, Intelliview, Infragistics, CRM, EDI

Sr. Software Developer

PUCO Public Utilities Commission of Ohio-Columbus, OH

August 2012 to March 2013

• Working with the department of transportation to migrate old OMCIS I system methodologies into a version II environment. Complete rewrite.

• SQL Server 2008 migration

• Implementing my own ORM for their second project

• Initial project was to conform to their LINQ architecture.

Environment: ASP, ASP.NET, VB.NET, HTML, AJAX, CSS, XML/XSL, WAP/WML/WMLScript, Visual Studio .NET 2003/2005/2008/2010, TFS, VBScript, SQL2000/2005/SQL2008, Access2000, ADO, JQuery, JavaScript, Silverlight, Exchange Server, Visual Basic, IIS5/6, Flash MX, and Fireworks MX, Intelliview, Infragistics, CRM, EDI

Sr. Software Developer

Insuraware-Columbus, OH

March 2011 to July 2012

• Designed, developed and deployed www.insuraware.com

• Working with Conduit Suite, an Insuraware product, to help CareWorks in Dublin, OH. To acquire and deploy software

• Developed C19, UB1450 and 1500 forms to input DDE data for billing review

• Developed dynamic validation to handle EOB editing and global validation without having to make code changes

• Developed dynamic form creation tool to create forms without having to write code

• Developed billing, claim and provider reports with Crystal reporting objects

• Developed a notation tool to intake HTML forms (776 approval/denials, C9's, FROI, Medical Assessments) and submit data back to the application

• Working along side BWC of Ohio for EDI 6010 translations

• Migrating data between SQL Server instances for Dev, QA and UAT

• Developed a dynamic tabbing routine for forms after render

• Working closely with Billing & Claims departments to ensure functional accuracy of transition.

• Developing along side multiple MCOs to ensure functional accuracy of multiple software transitions.

Environment: ASP, ASP.NET, VB.NET, WCF, SOAP/Web Services, HTML, AJAX, CSS, XML/XSL, WAP/WML/WMLScript, Visual Studio .NET 2003/2005/2008, TFS, VBScript, SQL2000/2005/SQL2008, Access2000, ADO, JavaScript, Silverlight, Exchange Server, Visual Basic, IIS5/6, Flash MX, and Fireworks MX, Intelliview, Infragistics, CRM, EDI

Sr. Web Application Developer/Information Architect/CIO

ThermoGum LLC-Columbus, OH

January 2010 to December 2010

• Acted as Senior Web Application Developer, Information Architect & Graphics Coordinator

• Designed, Developed and Deployed company web site (http://www.thermogum.com/) within personally created CMS architecture

• Responsible for all application problem analysis, defect tracking and repair, testing, coding, and documentation

• Oversaw all application deployments

• Created an ecommerce platform for the 2 private labels to communicate with custom ERP system and integrated the framework within CMS

• Created SEO compliance tools within CMS to measure content density and retrieve indexing results from big three.

• Designed and Developed complimentary graphing tool to present indexing results.

• Created reporting features within CMS to audit ALL end user activity within a private label environment

• Aligned ecommerce platform to three different web services written in C# framework 4.0. Web services used to increase speed of transactional interaction with primary SQL 2008 database

Environment: ASP, ASP.NET, VB.NET, SOAP/Web Services, HTML, AJAX, CSS, XML/XSL, WAP/WML/WMLScript, Visual Studio .NET, VBScript, SQL2005/SQL2008, Access2000, ADO, JavaScript, Silverlight, Exchange Server, Visual Basic, IIS5/6, Flash MX, and Fireworks MX

Front-End Web Developer

Resource Interactive-Columbus, OH

November 2009 to December 2009

• Front-end work for HP project, new homepage for various private labeled products.

Environment: ASP, JavaScript, HTML, Dreamweaver and Fireworks

Sr. Web Application Developer/Information Architect

AON Integramark-Alpharetta, GA

August 2008 to April 2009

• Acted as Senior Web Application Developer, Information Architect & Graphics Coordinator

• Designed, Developed and Deployed internal project management system within personally created CMS architecture

• Responsible for all application problem analysis, defect tracking and repair, testing, coding, and documentation

• Oversaw all application deployments

• Designed, Developed and Deployed private label web site (https://www.myaimservices.com/) within personally created CMS architecture

• Created SEO compliance tools within CMS to measure content density and retrieve indexing results from big three

• Designed and Developed complimentary graphing tool to present indexing results.

• Created reporting features within CMS to audit ALL end user activity within a private label environment

Environment: ASP, ASP.NET, VB.NET, SOAP/Web Services T, HTML, CSS, AJAX, XML/XSL, Visual Studio .NET, VBScript, SQL2000/2005/2008, Visual Studio .NET 2003/2005/2008/2010, Access2000, ADO, JavaScript, Exchange Server, Sharepoint, Visual Basic, IIS5/6, Flash MX, and Fireworks MX

Sr. Web Application Developer/Information Architect

Kids II Inc-Alpharetta, GA

August 2006 to July 2008

• Acted as Senior Web Application Developer, Information Architect & Graphics Coordinator

• Designed, Developed and Deployed company web site (http://www.kidsii.com/) within personally created CMS architecture

• Responsible for all application problem analysis, defect tracking and repair, testing, coding, and documentation

• Oversaw all application deployments

• Designed, Developed and Deployed private label web sites (http://www.brightstarts.com/), (http://pink.brightstarts.com/), (http://recall.kidsii.com/) within personally created CMS architecture

• Created an ecommerce platform for the 2 private labels to communicate with Point.Man ERP system and integrated the framework within CMS

• Created SEO compliance tools within CMS to measure content density and retrieve indexing results from big three.

• Designed and Developed complimentary graphing tool to present indexing results.

• Created reporting features within CMS to audit ALL end user activity within a private label environment

Environment: ASP, ASP.NET, VB.NET, SOAP/Web Services, HTML, CSS, AJAX, XML/XSL, WAP/WML/WMLScript, Visual Studio .NET 2003/2005, VBScript, SQL2000, Access2000, ADO, JavaScript, Exchange Server, Visual Basic, IIS5/6, Flash MX, and Fireworks MX

Sr. Web Application Developer

Infor-Alpharetta, GA

March 2006 to July 2006

• Acted as Senior Web Application Developer and Graphics Coordinator

• Designed, Developed and Deployed company web site in English & German within Reddot CMS

• Responsible for all application problem analysis, defect tracking and repair, testing, coding, and documentation

• Oversaw all application deployments

• Created backend applications to maintain and access customer and client data for Inforum Conference and also Inforum Partner Incentives Programs

• Converted two ASP, VB6 component based intranet web applications into C# framework 1.14 applications. Applications used for marketing access to graphical and real-time reporting.

Environment: ASP, ASP.NET, VB.NET, C#, HTML, CSS, XML/XSL, WAP/WML/WMLScript, Visual Studio .NET 2003/2005, VBScript, SQL2000, Access2000, ADO, JavaScript, Exchange Server, Visual Basic, IIS5/6, Flash MX, and Fireworks MX

Sr. Web Application Developer

Leica Geosystems-Norcross, GA

August 2005 to February 2006

• Acted as Senior Web Application Developer and Graphics Coordinator

• Designed, Developed and Deployed company web site

• Built, Designed and Maintained http://gi.leica-geosystems.com/default.aspx under personally created CMS application

• Created a backend application to maintain and access customer and client data

• Worked with C# framework 1.14 of DotNetNuke to deploy corporate website and internal sales dashboards

Environment: ASP, ASP.NET, VB.NET, HTML, XML/XSL, WAP/WML/WMLScript, COM+, Visual Interdev .NET, VBScript, SQL2000, Access2000, ADO, JavaScript, Exchange Server, Visual Basic, IIS5/6, Flash v5, HomeSite 5.0, WSH and Fireworks MX

Sr. Web Application Developer

Vesdia Corp-Atlanta, GA

February 2003 to May 2005

• Acted as Senior Web Developer and Graphics Coordinator

• Designed, Developed and Deployed company web site

• Responsible for all application problem analysis, defect tracking and repair, testing, coding, and documentation

• Oversaw all application deployments

• Built, Designed and Maintain all private labels (sites listed above under 2003-2004)

• Created a backend application to maintain and access customer and client data

• Converted private labeling architecture under VB.NET to C# framework 1.14 for company's preparation for acquisition

Environment: ASP, ASP.NET, VB.NET, HTML, XML/XSL, WAP/WML/WMLScript, COM+, Visual Interdev .NET, VBScript, SQL2000, Access2000, ADO, JavaScript, Exchange Server, Visual Basic, IIS5/6, Flash v5, HomeSite 5.0, WSH and Fireworks MX

Web Application Developer

BellSouth-Buckhead, GA

September 2002 to January 2003

• Responsible (Primary) for 3 business applications, Secondary for 2 web based applications

• Responsible for porting two applications into ASP.NET environment

• Created applications deal with doc/ppt/xls on server and made available for download

• Acted as content editor for primary and secondary sites

• Created quarterly reports on Intranet usage and key performance metrics, including frequency of visits by location and downtime for design

• Developed editorial guidelines and policies for: file sizes, content, and navigation

• Executed ongoing standards and procedures

• Worked with manager and other IS departments to drive usability and ensure that overall design is balanced against company needs

• Worked with other departments to conduct impact analysis and reduce bandwidth

• Created process for site maintenance

• Planned architecture and layout of site

• Created prototype mock-ups for new site generation

Environment: ASP, ASP.NET, VB.NET, JSP, SHTML, HTML, XML/XSL, WAP/WML/WMLScript, COM+, Visual Interdev 6.0,VBScript, SQL2000, ADO, JavaScript, Oracle 8i, DLL's, MTS, Exchange Server, Visual Basic, IIS5, Flash v5, HomeSite 5.0, WSH and Fireworks v4

Sr. Web Application Developer

Techweb Solutions-Alpharetta, GA

August 2002 to August 2002

• Designed, Developed and Deployed company web site

• Built Content Management System (CMS)

• CMS functionality includes messaging system, admin area, content editor (using IE extended functionality), ability to connect an unlimited number of websites to the interface for content control, e-commerce category and product development and advanced login features.

• Designed, Developed and Connected BodyRich Fitness into the CMS application

• Responsible for the design, development and deployment of all new sites added to CMS

Environment: ASP, ASP.NET, VB.NET, JSP, SHTML, HTML, XML/XSL, WAP/WML/WMLScript, COM+, Visual Interdev 6.0,VBScript, SQL2000, Access2000, ADO, JavaScript, Oracle 8i, DLL's, MTS, Exchange Server, Visual Basic, IIS5, Flash v5, HomeSite 5.0, WSH and Fireworks v4

Web Application Developer
LandAmerica/Primis, Inc-Alpharetta, GA
February 2001 to March 2002

• Acted as System Administrator, DBA for SQL 2000, and Web Application Developer roll.

• Developed applications in 3 tier environment using asp, JavaScript, xml/xslt, VBScript wrapped around com+ objects built in house.

• Pulled client info from an Oracle 8i DB and use a SQL 2000 DB on a win2k box to log all activity and error-handling occurring within applications.

• Responsible for 3 pre-production machines, 5 development machines, 4 dell 2450's and 6 dell 1550's with duel processors running win2k and 2 are running SQL 2000

• Developed the Intranet into a primary communications and business support tool for end users. Planned and executed strategies to more efficiently and effectively organize, manage, monitor and communicate about organizational documentation. Added the ability to Upload and Download work-in progress appraisal files.

• Added the ability to attach files to orders when they are placed in the system (supporting documentation i.e. original appraisals, contracts, plans and specs, etc.).

• Added event notification to alert vendors to new orders, on hold orders and cancelled order.

• Added parcel number and map reference number, sales price, sale data and estimated value if input.

• Maintained files in native format until marked complete to facilitate minor corrections without re-sending the file to the vendor for correction.

• Convert files to PDF after it has been marked complete.

• Communicated effectively with and motivate developers.

• Assisted Management with Career Mentoring of developers. Created, managed and updated a hierarchical Internet classification system.

• Filed pages and documents and liked them in appropriate locations.

• Built pages in compliance with corporate graphic standards

• Developed interactive Web tools (questionnaires, registration forms, ect)

• Worked with Manager to develop and approve content

• Managed the upload, approval and maintenance of all content loaded to the Web sites

• Collaborated with technology staff and other business units to guide content direction and quality for the site

• Coordinated the deployment process according to established production schedules and cycles

• Created graphics, implementing designs and layout

• Developed and implemented strategy to create an Intranet site that functions as a job-support tool and meets the online objectives of the documentation department

• Identified and reacted to relevant technical issues such as bandwidth and cost/performance tradeoffs

• Ensured continuous improvement of content and quality

• Created quarterly reports on Intranet usage and key performance metrics, including frequency of visits by location and downtime for design

• Developed editorial guidelines and policies for: file sizes, content, and navigation

• Executed ongoing standards and procedures

• Worked with manager and other IS departments to drive usability and ensure that overall design is balanced against company needs

• Worked with other departments to conduct impact analysis and reduce bandwidth

• Created process for site maintenance

• Planned architecture and layout of site

Environment: ASP, HTML, XML/XSL, WAP/WML/WMLScript, COM+, Visual Interdev 6.0,VBScript, SQL2000, ADO, JavaScript, Oracle 8i, DLL's, MTS, Exchange Server, Visual Basic, IIS5, Flash v5, HomeSite 5.0, WSH and Fireworks v4

Senior Interactive Engineer

Char Baxter Communications-Tucker, GA

February 2000 to January 2001

• Determined and planned for and against the clients' demographical behavior on the web.

• Conducted proper research and layout of given demographics for software/hardware environments, online bandwidth estimations and browser type.

• Developed and submitted to client a blue print/sitemap that reflects the behavior and environment the site should maintain to correlate with their demographical behavior and our findings.

• Developed web applications for consumers and/or business customers. (This includes software development methodology experience relevant to internet/intranet, e-commerce such as Dreamweaver 3/4, Flash 4/5, Ultra Dev and HomeSite 4.5 and sophisticated web creation languages like HTML, Java, JavaScript, J-Scripting, Cascading Style Sheets, CGI, Perl, ASP, Visual Basic, C++, VBScript, SQL, XML and Database development/implementation).

• Responsible for knowledge of the communications industry and/or billing systems, planning, controlling, communicating, risk analysis, quality assurance, team and vendor management, and implementation of project.

• Responsible for project discovery, design, and documentation; web server and/or other backend processing design. Interface with internet/intranet, e-commerce business unit to define and develop technical requirements and system functions.

• Identified needed resources, role definition and responsibilities of the participants

• Provided leadership and direction for assigned business area

• Worked with IT customers and IT departments to define and launch new product development programs, to introduce new IT products to the business, and administer these systems throughout the life cycle

• Communicated with customers and keep them apprised of project status

• Negotiated and coordinate with staff and client management to resolve problems and conflicts with service delivery or product performance

• 25% - Managing projects, developers assigned to projects.

• 5% - Implementing soft structural designs into hard product.

• 5% - Transfer to and from of data across external client and in-house servers (along with account setups and maintenance).

• 15% - Implementing Q&A process for project review status.

• 10% - Development and Implementation of advanced creation languages like: Java, JavaScript, J-Scripting, CGI, Perl, ASP, Visual Basic, C++, VBScript, SQL, XML and Database development/implementation.

• 10% - Project discovery, definition and estimation.

• 10% - Documentation development, review and standardization.

• 10% - Monitoring and reporting project progress.

• 10% - Impact assessment related to requirements, scope change, etc.

Project Manager

Gerald Stevens-Marietta, GA

January 1999 to January 2000

• Responsible for two networks within the Gerald Stevens Atlanta Region.

- Multi-User Dos gold 7 platform:

- Daisy Premier POS software configured on both server and workstation communicating through Intelliport Computone board (48 ports) reaching to the main retail warehouse and four remote locations either through dell Optiplex GI PC's or Relisys 65 dumb terminals. Ten PC's for remote locations and 36 for main warehouse. Remote stores communicate through either a Multimux with four channels or a multi-modem.

- Windows 98 sec. Edition/WinNT; workstation, server:

- Win98 workstations connecting to Win NT platform in Fort Lauderdale several workstations at the main retail warehouse have been configured to run on a given network based in Florida. Responsible for full configuration of all workstations to exist within Florida's NT network while configuring all workstations to run off the proxy server. All workstations are also configured to run and operate the above platform because several of the PC's are based in call center.

Education

Associate in Communications
Art Institute of Pittsburgh
1993 to 1995

High school or equivalent
Reynoldsburg High School
1992 to 1993

High school diploma
St. Charles Preparatory School
1990 to 1992

Certifications and Licenses

Driver's License
GA Issued

Conceal Carry
November 2017 to November 2022

Obtained in Fulton County. When I am in a hiring position, I look to see if any submitting candidates have their CC. If they do, It's an addition point in their favor. To help the company reduce cost, I always suggest to HR/Operations to confirm their CC status given you have to have a clean record to obtain one. HR always appreciates this request and helps them show a budget savings during standard 4th quarter annual budget reviews. $60-$100 background checks add up quick, especially if a company is experiencing a welcomed growth.

Subject: Recommendation Letter

To: Adam Kiger adamdkiger@gmail.com

To whom it may concern,

This letter is my personal recommendation for Adam Kiger. Until just recently, I have utilized Adam's software consulting assistance for the last few years. I found him to be consistently ambitious and pleasant, tackling all assignments with dedication and a smile.

Besides being a joy to work with, Adam is a take-charge person who is able to present creative ideas and communicate the benefits. He has successfully developed several software modules and utilities for my company that have resulted in increased revenue. During his tenure, we saw an increase in profits that exceeded one million dollars. The new revenue was a direct result of work and effort from the small team that Adam was on, and of which he was a major contributor. Adam maintained a high level of professionalism in both a very high-stress development and high-stress implementation efforts.

Though he was an asset to our development efforts, Adam also was extraordinarily helpful in other areas of the company. In addition to writing effective training documents and conducting training workgroup sessions, Adam assumed a leadership role in many meetings, inspiring and motivating other employees and client business leaders.

Specifically, Adam was instrumental in the construction of a dynamic edit system that was comprised of thousands of edits, also constructed by Adam. The system was designed and implemented to process thousands of edits against tens of thousands of medical bills per week, to the Ohio BWC, achieving the highest level of daily bill pricing accuracy the client or any of its 20 competitors have ever experienced. This thereby gave the client the upper hand in all negotiations with their clients, shareholders, and partners. Adam embraced this responsibility aggressively, working late hours and weekends to accomplish all the tasks at hand. All the meanwhile constructing the edits in an easy-to-understand manner.

Adam is very flexible and capable of adapting to new projects and platforms. Always willing to listen to and provide new ideas in attempts to solving the same old problems but with new techniques…a true Outside-the-box thinker.

I highly recommend Adam's technical services to any team. He is a team player and would make a great asset to any organization.

Sincerely,

Dana Jablonski

Owner/Operator

Insuraware

To Whom It May Concern:

I am composing this letter of recommendation for Adam Kiger. Mr. Kiger and I have worked together over the past year. I am CEO and Owner of several health product companies, and approached Adam initially due to his reputation around Columbus, and nationally, as a top notch web solutions specialist. Adam has proven himself far beyond deserving of his reputation and all of the praise I had heard.

Adam's demeanor is nothing but professional, and his ability to communicate complex concepts into something graspable by the layperson is unequaled. Adam was patient, thorough, and very enthusiastic in what must have been tedious meetings with me.

Adam constructed a fully functional front-end website, complete with automated, but interactive, back office. He was able to custom code several specialized functions in order to adapt to my special needs - all in an unbelievably brief amount of time. His commitment to my success and his ability to quickly deal with any issues places him in at the top of his profession.

Adam's dedication to his family, and to my family, have been inspiring. He is a truly dynamic individual, a dream to have in charge of my websites, and an example that many in this country would be advised to emulate.

If you have any questions about Adam or would like to see the work he did for me, feel free to contact me at mpearson@thermogum.com or by phone at 614-735-9473.

Sincerely,

Matt Pearson

CEO, ThermoGum

CEO, RPN

U,S. Army (ret)

3rd Quarter U.S. Shining Star Recipient
(The U.S. recipient will receive a Shining Star desk trophy and a check for $500.00)

Adam Kiger

Excerpts from the nominations:

Adam has demonstrated a strong commitment since his first day at Kids II. Adam has taken-on a very aggressive project list, including: re-launching the kidsii.com website, developing an internal content management system that allows us to update our websites more frequently and internally (eliminating the expense of outside agencies), re-launched brightstarts.com, and is currently wrapping-up the launch of the Kids II business-to-consumer site which will allow us to sell products online. He also

managed to squeeze-in the development of the Pink Campaign microsite and all the supporting email and database components for the Pink Power Mom Search along with other IT related projects.

Adam works hard to ensure that deadlines are accomplished. He not only delivers what is asked of him, he constantly thinks of incremental ideas that will make the outcome more user-friendly—even if it means more work for him. His dedication to the company and to the success of our interactive efforts is remarkable. He has done this because he is committed to delivering quality products in the time frames proposed. Adam works beyond diligently to deliver high quality product and is driven to give Kids II his best.

Adam has a "can do and positive attitude" that makes him the 3rd Quarter Shining Star.

Press Release

FOR IMMEDIATE RELEASE

AK2 Designs Receives 2023 Best of Newnan Award

Newnan Award Program Honors the Achievement

NEWNAN August 18, 2023 -- AK2 Designs has been selected for the 2023 Best of Newnan Award in the Website Designer category by the Newnan Award Program.

Each year, the Newnan Award Program identifies companies that we believe have achieved exceptional marketing success in their local community and business category. These are local companies that enhance the positive image of small business through service to their customers and our community. These exceptional companies help make the Newnan area a great place to live, work and play.

Various sources of information were gathered and analyzed to choose the winners in each category. The 2023 Newnan Award Program focuses on quality, not quantity. Winners are determined based on the information gathered both internally by the Newnan Award Program and data provided by third parties.

About Newnan Award Program

The Newnan Award Program is an annual awards program honoring the achievements and accomplishments of local businesses throughout the Newnan area. Recognition is given to those companies that have shown the ability to use their best practices and implemented programs to generate competitive advantages and long-term value.

The Newnan Award Program was established to recognize the best of local businesses in our community. Our organization works exclusively with local business owners, trade groups, professional associations and other business advertising and marketing groups. Our mission is to recognize the small business community's contributions to the U.S. economy.
